

The King's Revolution #8 ~ Growth Group notes
John Way 5/11/17

Romans 3.20-31

1. What struck you most from John's sermon on Sunday?
2. John spoke about the *object* of our faith being the cause of our salvation, not the amount of faith or even what we "believe" - it's God Himself.
 - What are the real-life implications of understanding like that? Or vice versa?
3. What should be the natural outcome of understanding that this is a *gift* (v24)? What changes should we see in our lives?
4. Why do you think we still trust *ourselves* in so many situations, or attempt to "feel better" before God?
5. How could we possibly explain any of this in laymen's terms to someone who doesn't know Jesus?
