

## ETERNITY Part 4: Life after Life, After Death

Rev 21-22; Isa 60

1. CITY: The city - God's people - needs no temple, because it is God and his people together, unhindered. In what ways can we ensure that temple/us avoids uncleanness in this present age?
2. CULTURE: What aspects of culture will likely be translated from this earth to its new future state, and which will likely not? What can we learn from that for the here and now?
3. CHRIST: The Lamb is at the centre of the city, the river of life flowing from his throne. How can we ensure Christ remains at the centre of our witness to our friend and neighbours today? (Remember Isaiah's promise in 60.22!)
